

## Productive in the Pandemic

The DAN staff members kept themselves busy in the time of the pandemic by attending a series of workshops conducted under the AHEAD Faculty Level Grant at the Faculty of Livestock, Fisheries and Nutrition (FLFN). The first series of workshops focused on effective counseling skills for the academic staff and was conducted by renowned psychiatrist Prof. Priyantha Gamini Jayasinghe. Another workshop on incorporating Socio-Emotional Learning into teaching and learning in higher education was conducted by Prof. Gominda Ponnamp. These workshops were a great start to inculcate and enrich the academic staff of timely and vital knowledge and skills that will help them become efficient and effective teachers in higher education.

DAN offers its sincere thanks to all the involved parties and especially the AHEAD Faculty Level Grant Coordinator/s for their contribution to the planning and execution of these workshops.
